

Chauhan Aditya Ganpatbhai

Full Stack Developer (MERN)

Surat, Gujarat, India | +91 8200438411 | adichauha465@gmail.com | linkedin.com/in/chauhan-aditya-11832431a | github.com/vits465

PROFESSIONAL SUMMARY

Full Stack Developer (BCA, Distinction — SGPA 8.78) with hands-on experience delivering production web applications for real clients, from a 150+ endpoint e-commerce backend to live, client-facing websites with integrated booking and automation. Proficient across the JavaScript ecosystem — React, Node.js, Express.js, MongoDB — with working knowledge of TypeScript. Comfortable directing AI coding agents alongside manual development to speed up delivery without compromising code quality. Currently completing Full Stack Web Development certification at Oscar Career Point Academy.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), jQuery, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, MySQL (basic)

Currently Learning: TypeScript

Tools & Workflow: Git/GitHub, Postman, VS Code, AI-assisted development (directing AI coding agents via structured technical specs)

Also Exposed To: PHP, Android (Java) — academic coursework

EXPERIENCE

Freelance Full-Stack Developer — Surat, Gujarat (Remote) — 2025 – Present

Design and build complete web applications for independent clients, end-to-end — from architecture through production deployment.

JourneyFlicker — Luxury Travel Agency Platform — Live: journeyflicker.com

- Built a client-facing React website plus an internal tool that unifies quotation and brochure generation into one workflow with live preview and dynamic field editing.
- Built a companion WhatsApp automation bot to streamline client communication and booking follow-ups.

Stack: React, JavaScript, Node.js Repos: github.com/vits465/journeyflicker · [journeyflicker-automation](https://github.com/vits465/journeyflicker-automation)

Bobby Salon — Men's Grooming Salon Website — Live: bobbysalon.in

- Designed and built a full production website for a real Surat salon, with a WhatsApp-integrated booking flow, service catalog, and portfolio gallery.

Stack: HTML5, CSS3, JavaScript, Bootstrap/Tailwind Repo: github.com/vits465/Bobby-Salon

The Flat White Coffee House — Cinematic Café Website — Live: the-flat-white.vercel.app

- Built a cinematic, scroll-driven site with Three.js 3D visuals and GSAP scroll choreography for a real café client, including a scroll-scrubbed video hero.

Stack: Next.js, Three.js, GSAP Repo: github.com/vits465/THE-FLAT-WHITE

ACADEMIC CAPSTONE PROJECT

House of Hackney — Luxury E-Commerce Backend API — College Final Year Project

- Designed and built a REST API for a B2C/B2B luxury e-commerce platform: 43 MongoDB collections across 5 domain modules, 156 endpoints.
- Implemented a 3-layer Repository → Service → Controller architecture for maintainability and scale.

Stack: Node.js, Express.js, MongoDB Repo: github.com/vits465/houseofhackney-Backend

EDUCATION

Bachelor of Computer Applications (BCA) — Distinction, SGPA 8.78

Udhna Citizen College, Surat (Affiliated to Veer Narmad South Gujarat University) — Feb 2025
